A DAY AT MT. VERNON.

A Jovial Crowd of Splendid People. A Delightful Retreat.

Hurrying away from the city Saturday at noon, the Telegram man in a little more than an hour was landed at Mt. Vernon Springs, that delightful retreat which nature has so wonderfully endowed with beauty, whose springs flow so bountifully with the "water of life" as the proprietor of the springs years ago named it, and beneath the cool shades of whose giant oaks many a tired rest and health seeker has found what he sought and into many a wan cheek has been fanned the ruddy glow of renewed health and vigor.

We found a large number of guests. At Mt. Vernon everybody feels at home. There are no formalities and people from all over the state meet, perfect strangers, but in a marvelously short time everybody knows everybody e se and they live there as one big family. That is one ideal feature.

Among those we met there and with whom we spent a delightful Sunday were: Maj. and Mrs. Jno. W. Scott, Hon D E McIver, wife and children, and Vance Scott, of Sanford; Rev. A. P. Tyer and daughter, Mrs. S. P. Collier, Jr., and Miss Sophie Hines, of Wilmington; Mr. G. W. Alley, Mr. O. Williams and family, Mr. and Mrs. D. Whitlock and children, Miss Lou C. McLean, Miss Bessie McMasters, R. W. Brooks, W. F. Clegg and others of Greensboro; Mrs. W. H. Lea and children, of Mebane; John W. Murray, Burlington; R B. King, Fayetteville; Rev. W. H. Townsend, Cumberland; H. B. Downing, Cedar Creek, and a number of others whose names we do not recall. It doesn't matter much about the names of the young men, and Will Clegg can furnish the names of the young ladies if you want to know them.

Evangelist W. R Gales was also there and on Sunday night the guests gathered on the lawn in front of the hotel and listened to an earnest and timely exhortation from him.

On Monday a few of the guests reluctantly departed for their places of business, many of them secretly promising themselves to spend next Sunday there if possible.

WAS THERE COLLUSION?

The Hearing in the Benbow Bankruptcy Proceedings.

The hearing in the matter of D. W. C. Benbow, bankrupt, before J. R. McCrary, referee in bankruptcy, was begun here yesterday and is continued today. Dr. Benbow went on examination yesterday and all his testimony is not yet taken. Dr. Benbow's creditors are represented by Messrs. L. M. Scott and John N. Wilson, of this city, E. K. Bryan, of Wilmington, and John Sprunt Hill and Albert P. Massey, of New York. Mr. Bryan is conducting the examination for this side and R. R King for Dr. Benbow.

In the hearing the creditors try to sustain the injunction which was granted by Judge Ewart a few days ago upon petition of the Southern Loan & Trust Company. Their point is to prove that Dr Benbow, in collusion with his son, C. D. Benbow, attempted to defraud creditors in making the original petition of bankruptcy, by not including all the property owned by Dr. Benbow at that time.

The examination grows more interesting as it proceeds and the end is not yet in sight. It is being conducted in the U. S. Government building.

The testimony taken is to be used before Judge Ewart on the 22nd inst., at Hendersonville, when the injunction matter comes up for hearing.

TRAIN LOADS OF COKE.

Southern Using its Big Engines for Heavy Trains on the A. & Y.

The Empire Steel and Iron Works will soon be prepared to work on full capacity again. A large force of hands is at work at Ore Hill and this will soon be materially increased so that ore can be gotten out and shipped here in much larger quantities. Besides this, the new mines are being opened near Chapel Hill and a good supply can be had from these.

The company is receiving coke from Virginia in enormous quantities. Fifty-two car loads have been delivered at Walnut Cove by the Norfolk and Western, and the Southern has found the small engines of the Atlantic and Yadkin inadequate. The Southern's big freight engines are now being run between Walnut Cove and Greensboro hauling solid train loads of coke from the former place. Traffic is said to be heavier on this part of the Atlantic and Yadkin than in many years.

LABORI SLOWLY IMPROVING

It Is Thought he Is Now Out of Danger.

NEW FORGERY IN THE DOSSIER

Has Been Discovered by M. Chamoin. This Information was Divulged by Labori when He Fell.

By Cable to the Telegram

Paris, August 15—Labori still lives, and will probably recover. The latest bulletin reports his temperature 37.05, with no fever. His condition is stationary, slightly improving during the last few hours.

SOMEWHAT BETTER.

Rennes, August 15—Labori is somewhat better this morning. His doctors, however, are still unable to sound the wound.

His assailant has not yet been arrested.

THE ASSASSIN'S WHEREABOUTS.

Rennes, August 15—A clue as to the whereabouts of the assassin was brought to the authorities at noon. Gendarmes were ordered to concentrate at a spot north of Rennes and search the forest. A man named Gallais has been arrested on suspicion of being the assassin.

OUT OF DANGER.

Rennes, August 15—The condition of Labori is so improved that his doctors consider him out of danger. He lies upon his back unable to move, but life is returning to his leg which was believed paralyzed. He has no fever, and continues to discuss the trial. Corroboration of the statement that his pockets were rifled was obtained today. An attempt was also made to steal his notes made upon the cross-examination of Mercier. When he had fallen, Labori saw one of two men run to his side. One said, "His coat must come off; he'll be too hot." The speaker then took off his coat. The other man siezed his wallet, which Labori refused to allow taken from his hands, putting it under his head. No effort was made to take his watch or money, which is regarded as clear evidence that the attack was a deliberate plot in which several are implicated.

NEW FORGERY.

Paris, August 15—Le Matin today makes announcement that Labori, after he was shot, declared that as the outcome of his injury appeared doubtful, he wished to make known the fact that M. Chamoin, who has charge of the secret documents of the Dreyfus case, had discovered a new forgery in the dossier.

The anarchist organ Depeuple says in relation to the outrage upon Labori, that anarchists will hold Mercier, Drumont, Rochefort, and Judet as hostages personally responsible for anything done against anarchists.

Another Horse Relieved.

Officer Pearce tackled a countryman this morning for driving a poor, lame horse on the streets. The rustic gentleman admitted that the faithful animal had at least one foot in the grave, but showed an utter contempt for the officer's blue uniform, and "guessed he'd see the mayor about that." The officer argued and threatened to no avail and finally unhitched the horse and was about to take the rural sage to the calaboose, but when the latter had been carried about half way to the unpleasant quarters he gave under, went back and leaving the wagon in the street, led the lame animal home

The yachting party returned to the Hotel Champlain at 5:30 this evening. The party had luncheon on board the yacht, and as the day was a charming one the long ride on the lake was much enjoyed.

THE DEMOCRATIC NOMINATION

Could Have Been Secured by the Nebraskan Without the Support of New York.

Special to THE TELEGRAM.

Washington, D C., August 15—The statement being spread to the effect that Southern Democrats are disposed to drop Bryan as their leader, on account of his alleged failure to vote for the late Representative Crisp for speaker of the house of representatives, is not borne out by interviews with Southern people coming to Washington. In the first place the record of congress proves conclusively that there is nothing in the statement that Col. Bryan did not vote for Crisp for speaker. If by the satement, it is meant to imply that Col. Bryan did not vote in the Democratic caucus for the nomination of Crisp as the democratic nominee for speaker, it may be true, but Col. Bryan being a western man, there was no reason why he should have been bound to give Crisp his vote in the caucus, and it is not likely that the ex-speaker ever took the slightest offense at the failure of the colonel to support him. Colonel Bryan as a member of the house of representatives from Nebraska, and a member of the democratic caucus was not bound by any political considerations to support any particular candidate, northern or southern The record, which is the only official guide of the house of reprentatives, shows that when the vote for speaker was taken at the organization of the house, Col. Bryan was present, and gave his support for Crisp, who was then the nominee of the democratic caucus for speaker.

Southern people who have been seen in Washington, including Representative Adamson, of Georgia, say that the attempt at this late day to make political capital out of Col. Bryan's position on a speakership contest will be a failure. Representative Adamson says that in Georgia no attention is paid to the statement, and Col. Bryan will not lose the support of a single individual, so far as he can judge, on account of this incident.

Politicians in Washington regard the interview of Mr. Crocker, relative to Col. Bryan, as very significant. It is the opinion, however, that Mr. Crocker's sudden change of opinion since his trip to Europe, in spite of his declarations to the contrary, is largely due to political consideration.

There is no doubt that Col. Bryan could secure the democratic nomination without the assistance of the New York delegation, but Tammany Hall, of which Mr. Crocker is chief exponent, desires doubtless to get on the winning side. With the state of New York in line for him, opposition to Bryan from other sources will amount to nothing.

Mr. W. M. Harrison, of Virginia, who is in the city, stated the other day that in his opinion Mr. Crocker will very shortly come out in a formal interview in favor of the nomination of Col. Bryan.

The appointment of Dr. Junius F. Lynch, of Norfolk, as quarantine officer for Norfolk and surrounding territory, gives much pleasure to his friends in Washington. Dr. Lynch is a son of the late Commodore William F. Lynch, who explored the Dead Sea, and afterward wrote a book on the subject which was widely read. Dr. Lynch some years ago married Miss Lucy Kemper, daughter of the late General Kemper, ex-governor of Virginia. During the yellow fever epidemic at Chattanooga, Tennessee, he was appointed quarantine officer at Chattanooga and then made a record as yellow fever expert which gained him much renown throughout the southern states.

Ex-Governor John Gary Evans, of South Carolina, passed through Washington last week enroute north. He did not stop over in Washington only long enough to make the necessary railroad connections. It is understood he was on his way to Connecticut.

The ex-governor is quoted as saying that the prospects for democratic victory in 1900 are very encouraging. According to the information he is quoted as saying that the affairs in Cuba and the Philippines will furnish the grounds upon which the democracy will go before the people next year. The southern states, he says, are suffering financially and look to the democratic party to relieve them of their distress and suffering. He thinks that Bryan is much stronger than he was three years ago, and that he will be renominated.

The funeral of young Mobley, who was killed in a fight among a crowd of boys last week, took place Sunday afternoon. The grandfather of young Mobley was Dr. W. B. Day, a prominent surgeon in the Confederate army during the late war. The mother of the dead boy was an army nurse throughout the civil war.

H. M. Groves, of Newbern, North Carolina, was in the city Monday. He is accompanied by his son H. M. Groves, Jr., and daughter Miss Lily Groves.

The Oxford Orphan Asylum, which was founded in 1972, is the property of the Grand Lodge of Masons of North Carolina. To the honor of Masonry it was established, not for the children of Masons only but to the extent of its capacity it is caring for the destitute and homeless orphans of our state, the only requirement for admission being a sound mind and body and the need of such a home. Over two hundred boys and girls now receive the benefits of this noble institution. Its mission, briefly stated, is to fit and prepare orphan children for citizenship on earth and citizenship in heaven—to rescue human lives to God and the world.

LOST $40,000 AT FARO.

The New York Lawyer Who Made a Million in Betting.

Saratoga, August 12.—Ex Corporation Counsel Clark has proved himself the gamest sport in Saratoga this season, and incidentally the unluckiest one. By speculating in Wall street and election betting Mr. Clark made a cool million. All Saratoga is talking of Mr. Clark's latest struggle with the tiger. The beast got the best of the encounter to the extent of $40,000, covering a two-nights play at roulette. Mr. Clark laughed when asked about it, and remarks philosophically that sometimes he loses and sometimes he wins.

Mr. Clark is said to have cleared up $8,000 on the races today by the victory of Dear Heart. The last time Mr. Clark held the center of the stage he bet $5,000 with Editor "Bill" Brown that Roosevelt would beat Van Wyck, then he spent the entire $5,000 on a dinner, which was served on a horseshoe bench in the stable where he keeps his thoroughbreds

KEEP THE BALL ROLLING.

It is to be earnestly hoped that the interest of the people of this city and Guilford county in better roads will not be allowed to lag. There is no other subject, unless it be the salvation of their souls, which is nearly so important as the road question. The future of Greensboro depends upon whether we shall have good or bad highways leading into the city from the country. Simply because we are a a great railroad center, we should certainly not overlook the importance of being a great dirt-road center.

Easy and quick access to our markets will bring the farmers to us with their products and their money, which is an item of vast importance in the upbuilding of Greensboro.

Mr. M. E. Eldridge, of the National Department of Agriculture, who has charge of the office of public road enquiries, gives the following interesting information regarding benefits to be derived from good roads:

The conclusion which he draws from the replies to 10,000 letters of inquiry sent to reliable farmers and teamsters in the United States is that the average cost of hauling one ton a distance of one mile is 25 cents. For the same amount of money a ton can be carried 200 miles by steamer, and 50 miles by rail. Evidently horse power is expensive.

The cost of marketing crops in Europe is much less than it is here, owing to the great superiority of the European roads. While it costs the farmer in the United States 25 cents to haul a ton of produce a mile it costs the European farmer less than 7 cents

One of the most prominent advocates of road reform estimates that the "bad roads bills" in this country will foot up at least $250,000 a year. We lose as much by bad roads as the entire cotton crop is worth.

About $30,000,000 a year is spent in the United States in repairing roads, bnt most of it is wasted. It is applied to temporary patching up of roads or is thrown away on slipshod and worthless work which is soon lost and the roads are as bad as ever.

Walter H. Page, the bright son of North Carolina who has long held the editorship of the Atlantic Monthly, has resigned his distinguished position and accepted an invitation to take a prominent part in the direction of the literary work of the allied houses of Harper & Brothers and the Doubleday & McClure Co. May the lustre of his rare genius ever reflect greater brilliancy on his native state, and add more undying laurels to his individual brow.

DREYFUS' DANGER.

The attempted assassination of M. Labori, the leading counsel of Captain Dreyfus at Rennes, draws the interest of humanity more closely to the situation in France, which every hour grows in precariousness. The populace is wild. There is no order in the court room nor upon the street. A breath would precipitate the impending crisis. Revolution, her fires smouldering, is ready at a moment's invitation to burst out in uncontrollable fury. Terror reigns. No man knows whose head has been marked for the stealthy knife or hidden bullet.

Poor Dreyfus! His course is a troubled one. His friends shudder for him. If he gain his freedom the assassin will in all probability consummate the balked designs of his foes.

The civilized world hopes that Labori, who alone has mastered the complicated testimonies that will bring freedom to Dreyfus, will live, and that truth and justice may prevail.

A textile department is sought to be established in the Agricultural and Mechanical College. President Winston says $20,000 will be required which sum he is trying to raise, but has only yet succeded in getting $100, which was donated by the Raleigh cotton mill. If the sum of $20,000 is to be raised it will take 200 such contributions as the Raleigh mill has kindly tendered. The Charlotte News mildly censures the capital city for this poor showing and says that if Raleigh, which is to be benefited more than any other town, only gives $ 00, most other towns will consider themselves generous if they give half that sum, and ends with the boast that, put the textile school in Charlotte and the business men of that progressive city will raise thousands in a day. We'll go one better: Give us the textile school here, and we'll venture the assertion that the business men of Greensboro will raise the total required sum in a day.

The Yankee is a most irrepressible factor in the world's progress. We reproduce the following from the Philadelphia Record:

The largest cargo of railway material that has ever gone from an American port was cleared from Philadelphia on Saturday last aboard the British steamer Puritan. It consisted of forty locomotives and eighteen steel bridges for the Chinese Eastern Railway, now in course of construction under the supervision of the Russian authorities with the financial aid of the Russo-Chinese Bank. A similar cargo is now loading here destined for Russian Black Sea ports.

THE PORTO RICAN HORROR.

Two Thousand Dead in Ponce District Alone.

Ponce, Porto Rico, August 12—The terrific wind which accompanied the recent storm destroyed the trees and demolished a number of houses on the higher ground, while the floods destroyed bridges and houses and caused great loss of human life. A large number of cattle was killed.

The storm was most severe in the central part of the island and along the southern coast.

Three hundred bodies have been buried in the city of Ponce, and it is estimated that two thousand persons were drowned in the Ponce district.

Senor Louis Gautier has been appointed alcade, the former incumbent of the office having been deposed on account of negligence.

Considerable unrest has been manifested among the people and a cavalry patrol has been established. The water supply has been restored.

During the progress of the storm the municipal hospital was wrecked and its patients were removed to the military hospital.

Yabucoa, Adjuntas and Humacao were devastated and in some instances entire villages were swept out of existence. One hundred persons are reported to have been killed on a coffee plantation Everybody is ruined, pestilence threatens, and money and work are needed, and a newspaper appeal has been made to the American people for relief. The calamity, with the commercial depression, has produced a terrible condition of affairs.

Both Americans and Porto Ricans demand the adoption immediately of a definite, permanent policy on the part of the government.

SOME AMERICANS KILLED.

San Juan, Porto Rico, August 12—According to an official report received here the port of Arecibo was destroyed during the recent severe storm, the place being inundated by water from the ocean and river; 200 bodies are in the morgue there and hundreds of persons are missing. A number of wealthy citizens who live on plantations in the suburbs were drowned. The commanding officer of the district has ordered that the bodies of the victims of the disaster shall be buried where they are found. San Juan has been applied to for supplies.

According to the latest report from Yabucoa, eighty bodies were buried there on Wednesday, while the remains of 200 victims have not been recovered. The church is the only building left standing.

It is rumored that a number of American soldiers were killed at Mayaguez.

SAYS HE'S THE SON OF GOD.

Harry Debnam's Mind Gone and He Says Strange Things.

Harry Debnam, a negro hack driver who went crazy here several days ago, was yesterday brought back from Auburn, whither he had wandered, and put in jail awaiting his admission to the asylum at Goldsboro. He imagines himself the Son of God and thinks he is compelled to go about preaching the gospel. When arrested at Auburn he had been out in the storm all night and had lost everything except a Bible, a copy of the News and Observer and a short stick. He was very scantily clothed.

When he arrived here and was being taken to the jail he conceived the idea that he was about to be hung and he set up a mighty cry for help and mercy. When fresh clothes were taken to him he got solemnly down on his knees and prayed the Lord to hold the earth still for a few minutes until he could put on his clothes.

He says the News and Observer is inspired and all men should read and follow it; that it is the next thing to the New Testament. All men, he says, ought to vote for the constitutional amendment.—News and Observer.

WHAT IT HAS DONE.

A Hurried Glance at Oak Ridge—What the Institute Is.

Correspondence Telegram.

The usual number of Greensboro boys will go out to Oak Ridge Institute next week to prepare for college, for business, and for life. We can wish them no better luck than to have the privilege of spending a few months under the classic shades of those great oaks which for well nigh half a century have stood guard over this great school, away from the noise and dust and roar and turmoil of metropolitan life.

The peculiar beauty and healthfulness of Oak Ridge, and the extensive investment made by the Professors Holt is not usually understood even by those who have been students there years ago. More than fifty thouand dollars have been placed there by the principals, and students flock there to enjoy the advantages offered by climate, equipment, and thorough trainers from all parts of the nation.

And why not? Pure cold water, mountain breezes, large orchards, palatial homes, wide stretches of hill and dale, forest and meadow, vistas of mountains, shady nooks, quiet retreats, tennis courts, athletic grounds —Why should not parents be glad to put sons under such surroundings and ennobling influences?

Prospect are unusually good this year, we are informed. Guilford owes much to her schools, and stands ready to encourage them by doffing her hat to them. In the distribution of her patronage, she should not forget Oak Ridge, and she will not.

It is not generally known that among the men who have been prime movers in the present metropolitan growth of Greensboro, were the following alumni of Oak Ridge Institute under the old regime: John L. King, R. R. King, S. S. Brown, Wm. Bevill, John McNairy, Gordy McKinny, H. B. Tatum, the late Judge Nelson and others.

It is not generally known that among the leading young men in the professions and in business, who are honoring Greensboro and helping to push her to the front, are the following alumni of Oak Ridge Institute, under the present management: J. S. Hunter, Z. V. Taylor, J. J. Nelson, S. A. Kirkman, G. A. Hunter, A. B. Kimball, Richard and Eddie Wills, G. O. Coble, Early and Mike Lewis, W. E. Allen, Dolph McAdoo, Webb Reed, Leon Brandt, Bart Webster, H. A. Garrett, S E. Balch, Arthur and John Rankin, T. B. Ogburn, Lacy Thacker, Rev. T. M. Johnson, Prof. Charles Raper, and scores of others who might be mentioned.

TEXAS FLOOD DAMAGE.

A Government Expert Finds that It Amounts to $7,400,000.

Washington, August 14—Mr. E. S. Holmes, Jr, an expert of the statistical bureau of the department of agriculture, has just completed a report to Chief Statistician Hyde of that department, embodying the results of a tour of the flood devastated region of Texas and making a careful estimate of the damage done, the aggregate of which he places at $7,414,000.

The number of farms submerged is estimated at 8,100 with a total area of about 1,380,000 acres. Of this area at the time of the flood there were about 503,000 acres under cultivation, 339,000 acres being in cotton, 124,400 acres in corn, 10,800 acres in sugar cane, and 28,600 acres in other crops, with a total production in sight equivalent to about $7,950,000, which is about $74 per capita of the population.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. C. E. Holton will refund your money if you are not satisfied after using it. It is every where admitted to be the most successful remedy in use for bowel camplaint and the only one that never fails. It is pleasant, safe and seliable.

Hamilton Clarke, of Chauncy, Ga., says he suffered with itching piles twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. Howard Gardner.

The height of fashion in bathing suits appears to be considerably above the knee.

All weak places in your system effectually closed against disease by DeWitt's Little Early Risers. They cleanse the bowels, promptly cure chronic constipation, regulate the liver, and fill you with new life and vigor. Small, pleasant, sure; never gripe. Howard Gardner.

Kodol Dysp psia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion" — James M. Thomas, M. D.; in American Journal of Health, N. Y. Howard Gardner.

DYSPEPSIA

"My wife suffered for many years from Nervous Dyspepsia, Sick Headache, Sleeplessness and Nervous Debility," writes John Kelloes, Philadelphia. "We tried many physicians and numerous remedies, but with no results, until I heard of Johnson's Dyspepsia Cure. We bought six boxes, and the results far surpassed our expectations. She now eats and sleeps well, is gaining in flesh, and her color, which had got to be yellow and sickly, is now as fresh as when we were first married, and I tell her that Johnson's Dyspepsia Cure has made her ten years younger."

"TAKE CARE

of the pennies and the pounds will take care of themselves." Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make. That is the philosophy of the old financial proverb, and its application is as broad as human life.

Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, someday, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities, and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs.

If you are sick you can consult Dr. R. V. Pierce, Buffalo, N. Y., by letter, free of charge. Each letter is treated as sacredly confidential, and an answer is promptly sent in a plain envelope without printing or advertising upon it.

"I was troubled with very frequent headaches, often accompanied by severe vomiting," writes Miss Mary Belle Summerton, of San Diego, Duval Co., Texas. "My bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing, and sometimes absolutely nothing for twenty-four hours at a time. I was entirely unfit for work, and my whole system seemed so run-down that I feared a severe sick spell and was very much discouraged. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake the duties attending public school life, and contracted to do so. I most heartily advise those suffering with indigestion, and its attendant evils, to give this great medicine a fair trial."

Use only Dr. Pierce's Pleasant Pellets with "Golden Medical Discovery" when a laxative is needed.

Is It Right for an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this remedy in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by C. F. Holton, druggist.

"I like to hear a servant girl sing at her work. It shows a good disposition. "Not always. I think ours sings because she has a grudge against us."

"This is a nobby suit, sir," said the tailor. "I put all the latest wrinkles in it." "Yes," remarked the customer, surveying himself in the glass; "but don't you think it would have been better had you distributed them. I don't care about having 'em all in the middle of my back."

ANNUAL MEETING

Of the Industrial and Immigration Association.

Greensboro, N. C., Aug. 14, '99.

The postponed annual meeting of the Industrial and Immigration Association will be held at the court house on Monday night, August 21, at 8:30. The regular time for this meeting coming as it did in the midst of preparations for gala week, it was deemed wise to postpone until after the festivities of that occasion were over that we might have a full meeting of the members of this association and its friends. It is desired by the management to render a full and complete account of their stewardship. New officers will be elected at this meeting, and everyone interested in the growth and development of Greensboro should attend and use his best judgment in selecting such men as are in a position to use their time, money and influence in developing the city's manufacturing interests.

We would advise that Mr. M. V. Richards, land and industrial agent of the Southern Railway, formerly occupying the same position with the Baltimore & Ohio Railroad, and one of the highest authorities on industrial progress in the United States, has consented to be present at this meeting and deliver the address of the evening.

Please let the association have your cooperation in making this meeting a success and in laying plans that will greatly increase its usefulness during the next year.

W. M. Barber, Secretary. J. S. Hunter, President.

Sharks Fear Noise.

The cowardliness of sharks is well known among men who have been much to sea in southern waters infested by man eaters. The fiercest shark will get out of the sea way in a very great hurry if the swimmer, noticing its approach, sets up a noisy splashing. A shark is in deadly fear of any sort of living thing that splashes in the water.

Among the south sea islands the natives never go sea bathing alone, but always in parties of half a dozen or so in order that they may make the greatest hubbub in the water, and thus scare the sharks away. Once in awhile a too venturesome swimmer among these natives foolishly detaches himself from his swimming party and momentarily forgets to keep up his splashing. Then there is a swish, and the man eater comes up beneath him like a flash and gobbles him.

The Sermon.

The caustic remarks of Justice Hawkins have not always been confined to the bench. At the opening of an assize the chaplain preached what he conceived to be a distinctly good sermon, and he had the temerity to sound Mr. Justice Hawkins on the subject.

"Did you approve of my sermon, my lord?" he asked.

"I remarked in your sermon, Mr. Chaplain," was the prompt reply, "two things which, to be candid, I did not approve of, and which I have, I am glad to say, never remarked on a similar occasion."

"They were, my lord?" was the anxious question of the preacher.

"The striking of the clock," answered Mr. Justice Hawkins, "twice, sir."—Green Bag.

Libels on Dogs.

After all man does not remember the dog's good qualities as he should. Look at the similes he uses—"you lying hound," "mean as a hound dog," "dog" and "low down cur!" Man hardly can think of a lower name than one connected with dogs. And in horse racing the worthless ones are called "dogs."

It seems a little ungrateful when one remembers all that a dog will bear from a man and still love him.—New York Commercial Advertiser.

She Was Deliberate.

It is said that Dinah Muloch Craik, the famous author of "John Halifax, Gentleman," made a habit of leaving at her bank the manuscript of each of her stories as soon as it was completed. It would remain there perhaps six months and then she would call for it and see how the story affected her after that lapse of time. If it pleased her, the manuscript was sent to the publisher. Otherwise it was rewritten or thrown away.

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure—it relieved at once and cured her in a few days."—B. L. Nance, Prin. High School, Bluffdale, Texas. Howard Gardner.

Nell—"Nothing in this country seems good enough for Mame. She goes to Europe for gloves, gowns, hats and everything she wears." Belle—"Yes; and she even goes abroad for her health."

Mr. A. Saunders, writing from Cocoanut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by C. E. Holton.

Would-be actress—"I'm surprised that you don't think much of my voice. I took great pains to make a favorable impression." Theatrical manager—"Yes; it sounded as though you were suffering intensely."

A rolling stone gathers no moss perhaps, but it certainly raises the "dust."

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. 'Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman. Trial bottles free at C. E. Holton's drug store. Regular size 50c and $1. Guaranteed or price refunded.

Seeking Rest, Or Health Or Pleasure?

Then Read This:

Mt. Vernon Springs Hotel is now open for the reception of guests. The waters from the Mt. Vernon Springs are equalled by few and surpassed by none in the state for medicinal and curative properties. Some of its cures are almost miraculous. Its taste is pleasant, cool, palatable and refreshing, and you enjoy it from the first. The springs are surrounded by great natural beauty. Around the premises is a dense oak grove and the air is pure and invigorating.

This most desirable of health and pleasure resorts is located just one mile west of Ore Hill in Chatham county. For further information address the owner and proprietor,

A STEALING MAN.

He that Stole and Ran Away Lived to Steal Another Day.

S. F. McBane and Joe Bunton, of Alamance county, came to Greensboro yesterday morning in search of Bode, alias Thomas, Allred, a white man who escaped from the Alamance chain gang about a month ago. Aided by Policeman Pearce, the men located Bode, secured a warrant from 'Squire Pritchett and yesterday afternoon Bode again fell into the hands of officers of the law.

Bode was serving an eighteen-months term for stealing a watch. When he had served one-third of his time he saw a chance of escape and took advantage of it. Before he had gotten a mile from the camp he went to the house of Mr. McBane, whose family was away, and stole thirty dollars in cash. A reward for the recapture of Bode was offered by the county, and Mr. McBane set out to catch him. Six dollars in cash was found in Bode's pocket yesterday.
